Sea otter deaths from boat strikes, while unintentional, are easily preventable through increased boater attentiveness. Thank you for practicing safe boating!

Wildlife and humans can safely enjoy our coastal waters:

- Enter and exit harbors with **no wake**
- Assign **spotters** when possible, to watch for wildlife ahead

For more info visit https://www.seaottersavvy.org/boating-and-sea-otters-no-wake-no-strike

This sea otter was recovered alive with a fatal propeller injury. Photo courtesy Monterey Bay Aquarium
